<ul style="list-style-type: none"> • Kosha is doing good as TA this semester, she prepares recitation class materials every week and is helping evaluating our homework. • Kosha is not the best TA I've had – to me, recitation with her was pretty confusing and a lot of time questions I had would not really be answered. I did not struggle with the material or the course, just with her recitations and explanations. Not a lot of discussion in recitation. Fair grader tho. • Kosha was a great TA and he answered questions well. I appreciated that she was always well-prepared for recitation. • She was not very helpful with problem sets. You could see how confused everyone was with the P-sets and she would not give the help we needed. 	

2 - What is the overall teaching effectiveness of Kosha Modi?
